The citational footnote style is an alternative to the traditional placement of citations, using footnotes only for the citational content that would otherwise appear in the body of an opinion if either the running text citation style (Â§ 1.2 [b]) or the citations within parentheses style (Â§ 1.2 [c]) were used.

The Style Manual used by the New York State Law Reporting

In computer science, an interpreter is a computer program that directly executes, i.e. performs, instructions written in a programming or scripting language, without requiring them previously to have been compiled into a machine language program. An interpreter generally uses one of the following strategies for program execution: parse the source code and perform its behavior directly;

Interpreter (computing) - Wikipedia

If one or more of these apply to you, please read on because you are in the right place and there's help for you here.. The families that use my science program typically possess expertise in a wide variety of trades and industry, from computer programmers and doctors to grocery store managers and hair dressers.

Homeschool Science Education

A virtual learning environment (VLE) is a system that creates an environment designed to facilitate teachers' management of educational courses for their students, especially a system using computer hardware and software, which involves distance learning. In North America, a virtual learning environment is often referred to as a "learning management system" (LMS).

History of virtual learning environments - Wikipedia

Hi everyone! I'm seeing a lot of activity in the COAH Community so I know you are all starting to plan ahead for next year! So today I'm sharing our top 5th grade homeschool curriculum picks! We've gotten to the point where we're pretty pleased with our line up of curriculum.
