Educational Psychology Interactive: Readings in

Psychology is the science of behavior and mind, including conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope and diverse interests that, when taken together, seek an understanding of the emergent properties of brains, and all the variety of epiphenomena they manifest. As a social science it aims to understand individuals and groups ...

NEW EVERYTHING IS CHANGE. Beatrice Walditch. In Everything is Change Beatrice Walditch shows how contemporary ideas of an ever-emergent cosmos are also part of the traditional worldview in places as far apart as Greece and China. This understanding of how the world works is in complete contrast to Christian concepts and the various successors – including supposedly secular science as well as ...
