Financial Accounting for NPOs - muridae.com

Financial economics is the branch of economics characterized by a "concentration on monetary activities", in which "money of one type or another is likely to appear on both sides of a trade". Its concern is thus the interrelation of financial variables, such as prices, interest rates and shares, as opposed to those concerning the real economy. It has two main areas of focus: asset pricing (or ...

Financial economics - Wikipedia

This article reviews the literature on the contingency theory of management accounting since the 1980 review by the author. It traces the expansion of this literature and critically outlines some of the major themes explored over this period.

The contingency theory of management accounting and

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...
